# Transport Insurance

# What do we offer?

## Owner Driver and Fleet Operators

Whether you're an owner-driver or manage a fleet of vehicles, your business relies on the smooth operation of your assets. Our insurance solutions cater to both owner drivers and fleet operators, providing coverage for your vehicles, plant and Equipment. From comprehensive vehicle insurance to Own Damage only, we have policies designed to safeguard your assets against accidents, theft, damage, and other risks that may occur while on the road or being used onsite.

## Public Liability

Public Liability is a crucial component of any comprehensive transport insurance plan. Accidents or incidents involving third parties can result in substantial financial liabilities for your business. Our public liability insurance covers you against claims for property damage or bodily injury to third parties caused by your transport operations. Additionally, it provides costs to defend you against accusations of damage or loss, providing peace of mind to both you and your clients.

## Depots without and with Storage

Depots are the lifeline of the transport industry, serving as crucial hubs for managing goods and coordinating transportation activities. We offer specialized insurance for depots, both with and without storage facilities. Our depot insurance policies cover a wide range of risks, including fire, theft, damage, and natural disasters. With our comprehensive coverage, you can protect your depot infrastructure, equipment, and stock, ensuring minimal disruption to your operations in case of unexpected events.

## Tailored to Your Occupation and Load

We recognize that different loads within the transport industry have distinct insurance needs. Our team of experts works closely with you to assess the specific risks associated with your occupation and develop a comprehensive insurance plan tailored to your requirements. Whether you're a truck driver, courier, freight forwarder, our policies can provide coverage for accidents, theft, damage and other unforeseen events that may occur during transportation.

## Chain of Responsibility

Compliance with the Chain of Responsibility (COR) laws is essential in the transport industry. We understand the legal obligations and responsibilities you face as a transport operator. Our COR insurance solutions offer protection against liabilities arising from breaches of COR legislation, including the safe transport of goods, driver fatigue management, vehicle maintenance, and load restraint. With our COR insurance, you can ensure that your business is adequately protected and minimize potential financial risks to you as the Director of the company.
